

**Ass. Prof. Dr. Nesrin Ozturk ERCELEN, M.D., Ph.D.**

Bahcesehir University Medical School, Department of Medical Genetics.

Scientific director in Liv Hospital Istanbul, Department of Regenerative Medicine, Stem Cell Research and Therapy Center.

Dr. Erçelen received her medical degree from Hacettepe University Medical School in 1993. Between 1993-2000, Dr. Erçelen completed her research fellowship in clinical cytogenetics at New York State University, Long Island College Hospital, Genetics Department. She also completed her fellowship in clinical molecular genetics and clinical genetics at Mount Sinai School of Medicine, Department of Human Genetics. She received her Ph.D. degree from Gazi University Medical School in 2000. Dr. Erçelen received her certification in Assisted Reproduction Technology (ART) and Preimplantation Genetic Diagnosis (PGD) at Reproductive Genetics Institute in Chicago in 2000. She established and directed Genetics and Genomic Sciences Center in American Hospital, Istanbul Turkey, between 2000-2012. Since 2012 september she is a associate professor in Bahcesehir University Medical School, Department of Medical Genetics. She is also the scientific director in Liv Hospital Istanbul, department of Regenerative Medicine, Stem Cell Research and Therapy Center.

Dr. Erçelen's special areas of interest include clinical molecular genetics, prenatal diagnosis, preimplantation genetic diagnosis (PGD), reproductive genetics and preventive/personalized genetics and regenerative medicine. She focused on single gene disorders, chromosomal aberrations and preimplantation genetic diagnosis. Dr. Erçelen is a member of American Society of Human Genetics (ASHG), European Cytogeneticsts Association (ECA), European Society of Human Reproduction and Embryology (ESHRE), ESHRE PGD Consortium and Preimplantation Genetic Diagnosis International Society (PGDIS).
